Letter From Anne

Throughout the past 37 years that we have been in business, our goal has been to bring well designed, well made, memorable jewelry, which is handcrafted in the USA, to you and your customers. Thus, twice a year, we (Jill, Kara, I and our team) develop and present to you styles that are classic, but with a nod towards the newest fashion trends and colors.

Spring/Summer 2018 is no exception. You will find in this collection new designs, and new categories, while we continue to offer many of our most popular older styles.

We have our best selling bangles and “Wrapsody” bracelets in new metals, colors and styles. Each one offered with a beautiful inspirational quote or message, which makes them perfect for gift giving, even if that gift is one that your customer gives to herself!

Our “jumble” necklaces are a brand new category that we have introduced within our Whimsy Collection. Here you will find a group of miniature charms which “jumble” together to make up a fun and fanciful look which is perfect for everyday wear.

I am most excited to introduce you and your customers to my newest collection, one which is closest to my heart, “Anne’s Vault.” This collection is comprised of a select group of limited edition vintage glass necklaces, which will come to you on a hand numbered card. When I first began in business in the early 1980’s I came across some of the most lovely handcrafted glass and imitation gemstones that I had ever seen. I didn’t have a specific idea of how I would use these precious works of art, but I knew that I couldn’t pass them up. So I purchased them, and have continued to purchase special, unique vintage glass ever since. I am fascinated with them, their workmanship and style, and the fact that they will never be made in the same way again. Through “Anne’s Vault”, I am giving these treasures the attention that they deserve and allowing everyone to appreciate and enjoy them, just as much as I do!

Lastly, I want to share with you an explanation of what you have been seeing on our social media posts and throughout this catalog - #be_unforgettable. After so many years of designing jewelry to help make women feel as beautiful on the outside as they are on the inside, I have realized that what we all strive for, what we all want...is to “be unforgettable.” We want you and each one of your customers to “be unforgettable,” whether it is the style one develops, gift that one gives, or the store ambiance that one creates. We encourage you to “be unforgettable” in all that you do!

Anne Koplik

Designer & Founder

Anne has always loved beautiful things, her favorite being antique jewelry. In the early 1980’s, after spending many years learning about and collecting antique jewelry, she realized that there was a need for affordable, vintage inspired styles. Collecting and wearing these vintage designs made her feel unforgettable, and she wanted other women to feel unforgettable too!

Anne’s mother, Sally, had been a millinery designer during the 1920’s. She was the perfect resource for Anne, and she encouraged her to go to 37th Street in NYC to find jewelry supplies. It was in one of those bead houses on 37th Street where she picked up her first pair of rosary pliers. She didn’t have to be taught how to use them, she instinctively knew. From there she purchased her first glass beads, chain and findings then went to her Long Island home to craft a dozen necklace and earring sets on her dining room table. Anne’s sister, Ilene, offered those very first pieces in her Cedarhurst, NY boutique. In no time, it was clear how much her designs were adored, because in 3 days every piece was sold...and Anne soon thereafter found herself in the middle of the fashion jewelry industry.

The Company

Today, Anne Koplik jewelry collections are proudly designed and handcrafted in their Brewster, NY studio. Anne and her team of skilled American artisans handcraft vintage inspired jewelry with crystals from Swarovski®. Each piece of jewelry is created for women who want to experience beautiful antique-inspired designs and have them for their own, at an attainable price.

One of Anne’s greatest joys is that she works side by side with both of her daughters Jill and Kara. Together they oversee all aspects of the business. She also loves that as she designs each piece, her golden retriever, Sonny, relaxes by her feet, on the purple floors that she installed throughout her workshop. Purple has always been one of Anne’s favorite colors.

Our Jewelry

For over 37 years, the name Anne Koplik has stood for style and quality. With over 400 pieces introduced each year, our jewelry can be spotted everywhere from the grocery store to the red carpet, proving versatility for every occasion. Today, Anne’s jewelry is often used by stylists and is worn by many of Hollywood’s elite. In fact, Anne Koplik jewelry has been the exclusive provider of jewelry for Dancing with the Stars since Season 5. Her jewelry has been featured at the American Music Awards, Daytime Emmy Awards, Tony Awards, The Wendy Williams Show, The Home and Family Network, Entertainment Tonight, and The Insider. Fashion editorial coverage has included prominent magazines such as InStyle, Lucky, Modern Bride, Good Housekeeping, and Women’s Wear Daily.

As Seen In...

We use only the finest materials, including crystals from Swarovski®, antique glass beads, and reproduction glass stones. We individually design, create and ship our jewelry from our studio located in Brewster, New York. Our earring wires are made from brass or sterling silver plated brass. The earring posts are made of surgical steel. Chains and clasps are solid brass. Our enamels are hand mixed and hand applied in our studio by skilled American artisans. All necklaces are adjustable from 16-18” long unless otherwise noted. Most importantly, all of our metals are completely lead/nickel/cadmium-free. Most earrings shown have both a standard wire (leverback) and an option for a post or clip-on, both of which are made with crystals from Swarovski®. There is an additional $6.00 charge to have any pair of earrings changed into a post or clip-on. When placing your order for earrings you must specify leverback, post or clip-on.
Our Jewelry
Anne Koplik Designs

Quality Statement
Each Anne Koplik Designs “it” piece is hand-crafted with time-tested techniques that no foreign assembly line or machine can match. Our work endures because we use only the finest materials; crystals from Swarovski®, freshwater pearls, hand mixed and hand applied enamels, glass stones, Mother of Pearl, etc. Earring wires are antiqued solid brass or antiqued sterling silver plated brass. Earring posts are surgical steel. All metals are lead/nickel/cadmium-free.

Connect With Us!

We value our relationships. Stay connected with us online to see our newest collections, receive exclusive promotions, and share with us all things AKD!

Don’t forget to #be_unforgettable!

We now have two options: with lip 2” x 2.5” or without lip: 3” x 3”

Over 35 years ago, Anne began designing jewelry and started to buy batches of decorative glass stones to use in her designs, some made as far back as the early 1900’s. Enchanted by these rare works of art, she has created Anne’s Vault, a collection of limited edition designs using these select pieces of magnificent vintage glass.

Anne’s Vault
VINTAGE TREASURE COLLECTION

Forever Flower Vault Necklace

Over 35 years ago I began designing jewelry and started to buy batches of decorative glass pieces to use in my designs, some made as far back as the early 1900s. Enchanted by these tiny works of art, I have created Anne’s Vault, a collection of limited edition designs using these select pieces of magnificent vintage glass. We hope you forever treasure your necklace featuring a glass flower laser etched, and handmade with a garden of flowers.
